

Cloud Maturity Workshop

APPROACH:

Is designed to solve complex technology, security, and operational issues. Working from your desired outcomes, we ensure alignment with your organization's goals and objectives.

STRATEGY

Custom roadmap

GOVERNANCE

Controls and standards

ARCHITECTURE

Cloud, multi-cloud, and on-prem

VALIDATION

Performance-tested

IMPLEMENTATION

Integration and optimization

OPERATIONS

ROI-focused

Are you struggling with the cloud? Feel like you're playing catch up as your business migrates to the cloud?

Fishtech has developed a unique solution to this challenge. And it starts with a **FREE CLOUD MATURITY WORKSHOP**.

During this half-day session, a Fishtech Solutions Architect will guide you through:

- Defining strategy
- Understanding specific use cases and requirements
- Determining success criteria
- Targeting capabilities

Finally, we work with your team to develop a cloud maturity roadmap deliverable with short- and long-term objectives.

Our approach provides customers the right solution the first time!

- **Cloud Strategy**
 - Develop a comprehensive cloud-centric strategy
- **Cloud Governance**
 - Map organizational governance program to cloud strategy
- **Cloud Architecture**
 - Provide multi-cloud architecture based on governance objectives
- **Validation**
 - Utilize Fishtech's lab to ensure tight technology integration and interoperability
- **Implementation**
 - Develop an execution strategy with short-term and long-term objectives
- **Operations**
 - Solutions designed to operationalize cloud strategy and governance
